

Existing and Planned EEOs

Pros and Cons of the current design of the
EEOs

Nele Renders – VITO

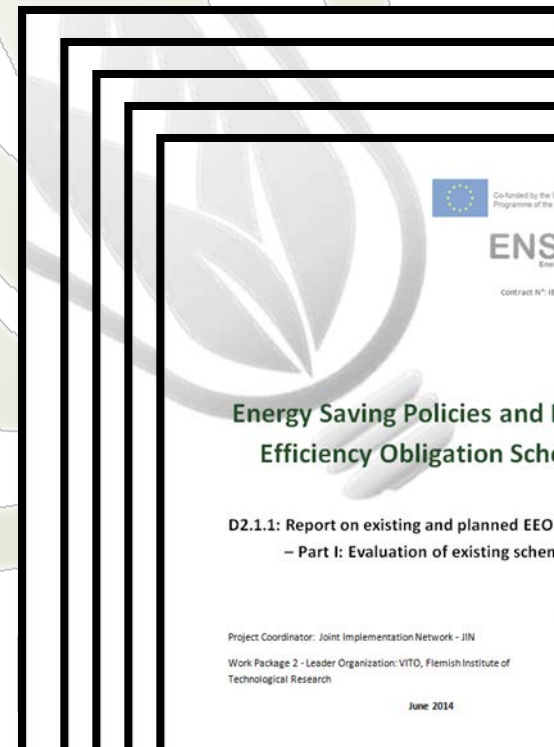

Existing Schemes

- Denmark,
- Flanders (Belgium): Ended in 2012
- France,
- Italy,
- Poland,
- UK

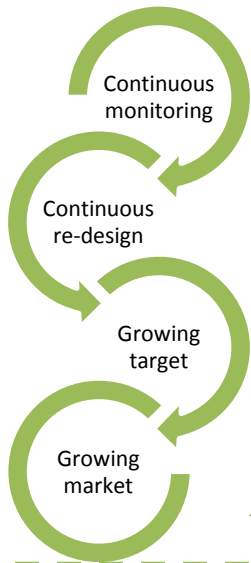

ENSPOL – WP2: Analysis existing schemes

- Design
- Results
 - ❖ Total costs – expenditures – savings - cost effectiveness
 - ❖ Adaptation – Reasons for redesign
 - ❖ Lessons learned

Good Ingredients EEO

LOW
COST

Challenges EEO

Additionality

Learning from experience

National peculiarities

Behaviour – Innovation

Energy Saving Policies and Energy Efficiency Obligation Scheme
